Salt Lake City, Utah 84180-1203

Dear Mr. Nielson:

Anaconda Minerals Company has prepared a Reclamation/Stabilization Plan for the Carr Fork Mine, in accordance with DOGM regulations.

The Plan addresses all aspects of the property owned in the area by Anaconda, such that Anaconda can complete the stabilization and satisfy all safety and environmental concerns. Anaconda proposes to begin reclamation and stabilization of the property later this summer.

As we discussed on the telephone, Anaconda appreciates the opportunity to review the Plan with you and other interested parties by making a presentation on July 22, 1985. We thank you for your offer of a meeting room, but we feel it would be more appropriate to hold the briefing at the mine site. We have scheduled the conference room for 1:00 p.m. Access to the office is through the Carr Fork mine gate just east of Tooele.

By copy of this letter, we are also inviting DEH, EPA and Tooele County representatives. We anticipate two to three hours of discussion. Either before or following our meeting, a tour of the property can be arranged. If you or your staff are interested in such a tour, please call; and we will make the proper arrangements. We look forward to seeing you there on Monday.

Sincerely,

R. Krablin
